Good Afternoon Professor Veksler,

You are the absolute best. Thank you for submitting the evaluation letter so soon. I would also like to inform you that I was recently accepted to the Rutgers Health Informatics - AI in Healthcare Track MsC. I really appreciate all that you have done for me during and after my time at Caldwell. It has really made all the difference in choosing a career path, and most recently getting into a prestigious graduate school in my preferred field. I am applying to Brown's University in hopes of getting into an even more prestigious school, and I couldn't have done it without your guidance. I appreciate all the time and effort you put into assisting me in this process, and wish you nothing but the best. THANK YOU!

Sincerely,
[REDACTED]
