Good Morning Professor,

Thank you so much for your kind and prompt message and for offering to review my resume. I truly appreciate from the bottom of my heart your time and willingness to help guide me through this process.

I will make sure to attend the event in Werner on Monday night and take advantage of the opportunity to network. I have completed internships in the past, including a data and marketing analyst role, and I have started reaching out to my former managers and colleagues to inquire about any openings or referrals they may know of. Actually, I have been in touch with [REDACTED] too who has been helping me keep my LinkedIn up to date and he also connected me with some former Caldwell students. However, still no luck-

Thank you again for your support, encouragement, and reassurance. It means a great deal to me. I have attached my resume below.

Warm regards,

[REDACTED]
