Dear Prof. Vlad,

I hope this message finds you well and you are enjoying the holiday season. As we begin 2025, I wanted to take a moment to express my sincere gratitude for the incredible experience in **CS 195** this past semester.

You are truly one of the best professors I've had the privilege of learning from. Your teaching style is exceptional, and you have an incredible ability to break down complex programming concepts in a way that is clear and accessible. Your approach makes programming not just understandable but genuinely enjoyable. It's clear to me that you are the perfect fit for teaching this course, and I feel fortunate to have had you as a professor.

I also want to thank you for the guidance and support you've provided throughout the semester. Your advice and insights have been invaluable, and your understanding nature made it easy to approach you with questions. I really appreciate the time you take to ensure that every student is able to succeed.

I'm excited to let you know that I've enrolled in **CS 196** for the upcoming semester, and I look forward to seeing you again in class. I'm eager to continue learning from you and deepening my knowledge of programming.

As we move into 2025, I wish you and your loved ones a very Happy New Year filled with good health, happiness, and continued success. Thank you again for your dedication to teaching and for creating such a positive and supportive learning environment. I look forward to continuing to learn from you in the semesters ahead.

Warm regards,

Class of 2028
