Dear Professor Vlad,

I hope you are doing well. As the semester comes to an end, I wanted to take a moment to express my heartfelt gratitude for everything you've done throughout this course. Even though I know that computer science might not be my true calling, your lectures made the subject both enjoyable and engaging. I had a lot of fun in class, and I truly appreciate the effort you put into making the material accessible and interesting for everyone.

While I may not finish with the ideal grade, I'm proud to say that I've retained most of the concepts we learned, thanks to your clear explanations and patient guidance. Your passion for programming and teaching was evident in every lecture, and it motivated me to keep trying, even when things felt challenging. I probably also became a more patient person than I would like to admit solving puzzles and finding my mistakes.

Thank you so much for your dedication, support, and encouragement throughout the semester. It has been a privilege to learn from you, and I'm grateful for the experience. Wishing you a wonderful holiday season and all the best in the future.

Sincerely,
