Response Rate				Mean		STD		Median
8/19 (42.11%)				5.00		0.00		5.00

11 - What do you think are the instructor's strong point?

Response Rate	8/19 (42.11%)
• Teaching • Interaction with the students • Expertise in Field, Engaging and easy presentation, Being Ready to help • Being very knowledgeable on the subjects that were brought up in class. Always offering help to students who needed it. Giving in class time to work on homework assignments where students may have needed help. • The instructor is very engaging with regard to lectures, shows and explains sample code in his lectures, and is willing to help students with their code. • He is willing to stop the class and make sure that you understand the topic. • He made the course look easy and fun. • Patience, hands on practice	

12 - What do you think the instructor might do to be more effective?

Response Rate	8/19 (42.11%)
• Easier Mid term • Nothing • None • I am not too sure. I felt this class was very straightforward and informative. • The one thing I think that might make the class better would be small quizzes every now and then that will translate to concepts that would be on the midterm. It might help students know what exactly they need to review. • I feel that the instructor needs to add a little bit more work to make people fully understand the subject. • He should keep up with his good presentation. He was great. • Nothing

Response Rate				Mean		STD		Median
5/23 (21.74%)				4.80		0.45		5.00

11 - What do you think are the instructor's strong point?

Response Rate	5/23 (21.74%)
• The instructor replies quickly to emails and concerns of students. • He used class time wisely and always made sure he helped everyone and was very approachable and understanding. • always ready to help, was considerate and flexible • The instructor made sure that all students did the work giving opportunities to get help on assignments • Demonstration of the effectiveness and importance of excel	

12 - What do you think the instructor might do to be more effective?

Response Rate	5/23 (21.74%)
• I do not have any recommendations for this professor in order to be more effective. • Everything he did was very effective. • I didn't like the fact that there were two parts to the midterm on different days, id prefer doing the midterm in one time during class. • n/a • Way too much work load. Often times struggling to stay on top of the many weekly assignments for this coarse in addition to my other classes. Too much weekly workload outside of class

Response Option	Weight	Frequency	Percent	Percent Responses	
Elective	(1)	0	0.00%		
Required for Major	(2)	6	100.00%		
Required for Minor	(3)	0	0.00%		
Required for Core	(4)	0	0.00%		
Response Rate	6/24 (25%)				

4 - What did you like about this course?

Response Rate 6/24 (25%)

- It is very interesting to solve problems and find different ways to do it.
- Professor really made this course really easy.
- Fun to learn about Python
- The professor was very interactive with the students and was always to assist me outside of class. I could see that the lessons had real world applications and still gave us the rudiments of what it takes to master the python and best practices in programming. The Assignments were also challenged me to apply the lessons in class.
- the course delivery and presentation.
- It really helps to think critically and invest time in a good way.

5 - What changes, if any, would you like to see in this course?

Response Rate 6/24 (25%)

- none so far
- None.
- none it was great
- I cannot think of any right now
- nothing
- I dont sew to need to change this course.

Course: CS195002223FA: COMPUTER PROGRAMMING I - 002

Instructor: Vladislav Veksler *

Response Rate: 6/24 (25.00 %)

6 - What do you think are the instructor's strong points?

Response Rate 6/24 (25%)

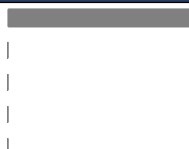

- He explains everything, makes sure every student is on the same page and genuinely wants students to learn.
- Everything. He takes time to explain each block of code. He really made this complicated course too easy.
- He wanted to teach
- 1. Very interactive 2. Very Knowledgeable about the field of instruction 3. Speaks clearly 4. Encourages questions in class. 5. Assignments are clearly link with lessons
- His ability to make points clear.
- - He makes everything easy to understand. - He makes sure that everything students understands the lectures.

7 - What do you think the instructor might do to be more effective?

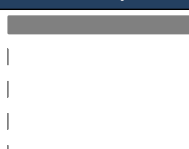

Response Rate 6/24 (25%)

- He is perfect so far.
- Keep up the good work.
- NOthing he was incredible
- i can't think of anything righnow
- nothing, he should continue what he's doing
- The instructor is nearly perfect in the class.

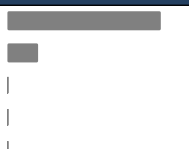

8 - The instructor used class time well in developing the subject matter.

Elective	(1)	0	0.00%	
Required for Major	(2)	3	100.00%	
Required for Minor	(3)	0	0.00%	
Required for Core	(4)	0	0.00%	
Response Rate	3/24 (12.5%)			

4 - What did you like about this course?

Response Rate 3/24 (12.5%)

- This course helps me to learn python programming language in detail which I like most.
- This was a very well-organized course; I was able to learn so much about the topic and the class was very chill.
- Code and Assignment

5 - What changes, if any, would you like to see in this course?

Response Rate 3/24 (12.5%)

- Perfect
- None
- Everything looks good.

6 - What do you think are the instructor's strong points?

Response Rate 3/24 (12.5%)

- He is incredibly cool and is constantly available to assist students who run into problems while coding. He never gets frustrated when we asks the same question over and over.
- Organized, well spoken, caring
- The instructor's teaching style by going through every chapter with perfect explanation.

7 - What do you think the instructor might do to be more effective?

Response Rate 3/24 (12.5%)

- Nice in overall.
- Nothing I can think of
- Everthing looks effective.

Fall 2022 - Business and Computer Science Course Evaluations - F2F (Undergraduate)

Course: CS4200012223FA: ARTIFICIAL INTELLIGENCE - 001
Instructor: Vladislav Veksler *
Response Rate: 4/13 (30.77 %)

1 - Students's Academic Major or Program

Response Rate 4/13 (30.77%)

- Computer Science
- computer science
- Computer Science
- Psychology

2 - Anticipated Grade

Response Rate 4/13 (30.77%)

- A
- a
- A
- A

3 - Why did you take this course? (Select as many as apply)

Response Option	Weight	Frequency	Percent	Percent Responses	
Elective	(1)	1	25.00%		
Required for Major	(2)	3	75.00%		
Required for Minor	(3)	0	0.00%		
Required for Core	(4)	0	0.00%		
Response Rate	4/13 (30.77%)				

4 - What did you like about this course?

Response Rate 4/13 (30.77%)

- Brilliant
- professor cares if we understood or not. interesting topic
- I like that this course was very flexible. We did labs together in class and did not have to worry about piles of assignment. We did research on our own and learned things without being pressured with assignments.
- All of it! All of the topics were interesting and helped deepen my understanding of the course subject. A lot of the concepts built upon each other in later lectures, so I appreciate the thought that went into structuring the class so that we were able to understand the later concepts.

5 - What changes, if any, would you like to see in this course?

Response Rate 4/13 (30.77%)

- All Good
- tough to say but maybe use some more time to explain the subject
- I would probably change some course structure - although the present one was very effective. Probably will include some basis machine learning algorithm as well.
- Not many, but as explained in another question, I do think that stopping during the lab demonstrations to ask what the students think should be done next might help some like me better understand what steps are being taken.

6 - What do you think are the instructor's strong points?

Response Rate 4/13 (30.77%)

- Illustration
- very nice. always helps us. explain as many times as needed
- He is understanding of students and gives time to each and every students. I was once absent in the class and he made sure to stay later the class to go over the materials I missed.
- The instructor is very good at explaining concepts that seem to be difficult to understand at first. He is very good at breaking things down into pieces that are easy to understand, and his examples and demos/labs are always very informative.

Course: CS4200012223FA: ARTIFICIAL INTELLIGENCE - 001

Instructor: Vladislav Veksler *

Response Rate: 4/13 (30.77 %)

7 - What do you think the instructor might do to be more effective?

Response Rate 4/13 (30.77%)

- He's Excellent
- have some extra material prepared for class to explain each topic a little further. make is easier.
- Instructor has a great knowledge about this topic and the way he delivers is unparalleled.
- Something that I personally liked about the first few labs that we completed was that I was able to figure things out on my own, as I feel like it personally helped me understand what was happening a lot better. That being said, I understand the change to demonstrate the steps in class to complete the labs for those who might be stuck on something complicated otherwise, but I think it would be of some benefit to ask the class what they think should be done next, so that they could have a chance to try to figure it out on their own.

8 - The instructor used class time well in developing the subject matter.

Response Option	Weight	Frequency	Percent	Percent Responses	Means

Response Rate: 5/24 (20.83 %)

1 - Students's Academic Major or Program

Response Rate 5/24 (20.83%)

- CS
- Computer Science
- Computer Science
- Computer Science
- CS

2 - Anticipated Grade

Response Rate 5/24 (20.83%)

- 4
- A-
- A
- B
- A

3 - Why did you take this course? (Select as many as apply)

Response Option	Weight	Frequency	Percent	Percent Responses
Elective	(1)	0	0.00%	
Required for Major	(2)	5	100.00%	
Required for Minor	(3)	0	0.00%	
Required for Core	(4)	0	0.00%	
Response Rate	5/24 (20.83%)			

4 - What did you like about this course?

Response Rate 5/24 (20.83%)

- professor
- Encapsulates a lot of information that will be useful for the future.
- The course was interesting and the professor made an effort to answer any questions and ensure students were engaged so they were learning
- It was in python The course material was clear and engaging
- I like solving problems :))

5 - What changes, if any, would you like to see in this course?

Response Rate 5/24 (20.83%)

- nothing
- Post the lecture before class, I always like to review beforehand. That way I can come more prepared with any questions I have, and take notes on the lecture itself.
- n/a
- course is perfect as is
- none

6 - What do you think are the instructor's strong points?

Response Rate 5/24 (20.83%)

- engaging
- He teaches very efficiently, and not rushed. He also changed the slides and incorporated them into Jupyter notebook, I really liked that.
- Taking time out of class to help students, even with things not entirely related to course work enthusiasm
- Very engaging, keeps involving everyone and keeps the class lively. Has a good teaching style, is ready to explain your doubts numerous times. Also is friendly and easy to reach out to in case of any questions either inside or outside the syllabus.
- he makes coding very fun and interesting. nothing seems hard because he breaks it down in parts and makes us understand. the assignments are also really helpful.

Caldwell University

Spring 2023 - Business and Computer Science Course Evaluations - F2F (Undergraduate)

Course: CS196002223SP: COMPUTER PROGRAMMING II - 002
Instructor: Vladislav Veksler *
Response Rate: 6/24 (25.00 %)

1 - Students's Academic Major or Program

Response Rate 6/24 (25%)

- Computer information systems
- Computer Science & Mathematics
- Bachelor In Computer Science
- Undecided
- Computer Science
- Computer Science

2 - Anticipated Grade

Response Rate 6/24 (25%)

- A
- A
- A(4.0)
- B+
- A
- A-

3 - Why did you take this course? (Select as many as apply)

Response Option	Weight	Frequency	Percent	Percent Responses	
Elective	(1)	0	0.00%		
Required for Major	(2)	6	100.00%		
Required for Minor	(3)	0	0.00%		
Required for Core	(4)	1	16.67%		
Response Rate	6/24 (25%)				

4 - What did you like about this course?

Response Rate 6/24 (25%)

- First of all this was a interactive class. With lots of Q&As in the class it self and the atmosphere of pure learning and excitement in what to learn. Individually, I gained a lot of knowledge regarding Object Oriented Programming with python.
- Carefully structured course materials really helped me navigate the course contents and absorb it pretty well. The course was open to Q&As and allowed students to learn on their own pace.
- I liked to learn object oriented coding with GUI based environment. I got good chance to learn such interesting topic in this course.
- I enjoyed the fact that I had plenty of time between lectures to complete work, and that if I needed to I could come to a lab/practicum for help with understanding the material or completing the assignments.
- This course covers the intermediate to most likely professional level of programming concepts, especially about building classes as templates to perform different attributes and functions. This is the important concept that we should know to start our programming journey.
- Coding and skill development

5 - What changes, if any, would you like to see in this course?

Response Rate 6/24 (25%)

- I find no need of any changes in this course, as it's said, "if it's not broken don't fix it."
- I would like to see some more interactive assignments and activities to expose students to more dimension of Python.
- Everything is perfect. I don't think anything need to improve.
- I think the course was good overall and I don't think there are any changes that need to be made.
- In my opinion, I don't think any changes would be necessary.
- No need for chnages

Course: CS196002223SP: COMPUTER PROGRAMMING II - 002

Instructor: Vladislav Veksler *

Response Rate: 6/24 (25.00 %)

6 - What do you think are the instructor's strong points?

Response Rate 6/24 (25%)

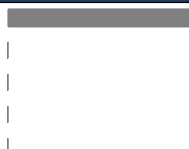

- Vlad is among the best professor I came across with. He is always on point, knows what he is talking about and can clarify a set of tough concepts with an ease.
- His organized course materials and his availability for students to ask questions would be his strongest suits.
- He is charming guy. He cares about all the students. He always wants us to know new ideas about coding.
- He doesn't mind explaining topics in different ways in case somebody doesn't understand them, and he makes sure that everyone is on the same page and understands the material.
- Instructor's teaching methods and slides are more than enough to learn for this course, and I found those are very effective.
- Explanation helping students

7 - What do you think the instructor might do to be more effective?

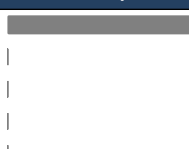

Response Rate 6/24 (25%)

- He is the best.
- The instructor might contain more resources to dive into to self-learn the concepts to make the course more effective.
- I am totally fine with him.
- I think the instructor was already very effective in delivering the material.
- I love how instructor creates his slides to teach his students, and I don't think any effective methods would be necessary.
- Overall, the instructor is best

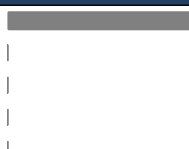

8 - The instructor used class time well in developing the subject matter.

Response Rate: 2/11 (18.18 %)

1 - Students's Academic Major or Program

Response Rate 2/11 (18.18%)

- Computer Science and Business Analytics
- Computer Science

2 - Anticipated Grade

Response Rate 2/11 (18.18%)

- A
- A

3 - Why did you take this course? (Select as many as apply)

Response Option	Weight	Frequency	Percent	Percent Responses
Elective	(1)	0	0.00%	
Required for Major	(2)	2	100.00%	
Required for Minor	(3)	0	0.00%	
Required for Core	(4)	0	0.00%	
Response Rate	2/11 (18.18%)			

4 - What did you like about this course?

Response Rate 2/11 (18.18%)

- It is the most important course for me in order to excel in my future career and I was hoping I'd get to learn from a good Professor who really knew what he was doing. My expectations were totally met.
- Increased difficulty level was a major incentive to indulge myself in the course. Proficiency in python leveled up.

5 - What changes, if any, would you like to see in this course?

Response Rate 2/11 (18.18%)

- I think his course was perfect.
- Nothing

6 - What do you think are the instructor's strong points?

Response Rate 2/11 (18.18%)

- Professor Veksler goes above and beyond to make sure we learn everything we need to. He has an amazing knowledge about computer science best part is he knows how to share his knowledge. To top it all, he has a great sense humor. His class is something that I always look up to.
- 1. Friendly 2. Professional 3. Technical

7 - What do you think the instructor might do to be more effective?

Response Rate 2/11 (18.18%)

- Maybe he could instruct us to do some amazing projects that would make our resumes more desirable.
- He is a 10/10.

- A
- A
- A
- A
- A
- A
- A

3 - Why did you take this course? (Select as many as apply)

Response Option	Weight	Frequency	Percent	Percent Responses	
Elective	(1)	5	62.50%		
Required for Major	(2)	4	50.00%		
Required for Minor	(3)	1	12.50%		
Required for Core	(4)	0	0.00%		
Response Rate		8/39 (20.51%)			

4 - What did you like about this course?

Response Rate 8/39 (20.51%)

- Freedom
- Very nicely explained. Useful information
- Focused on a specific career, so if I were to follow a career centered around UI/UX then this class gave me a lot of building blocks for my future in it.
- The course purpose.
- I liked learning about the subject, from a designer perspective. i like the way professor Veksler taught the class, and how the course was project based.
- A completely new environment for me to thrive in. Learned about enhancing user experience to build the ultimate app.
- Something new that hasn't been taught in Caldwell, but really important class for future designers and UI/UX experts.
- Everything

Caldwell University

Spring 2023 - Business and Computer Science Course Evaluations - F2F (Undergraduate)

Course: CS2420012223SP: UI/UX HUMAN-CENTERED DESIGN - 001
Instructor: Vladislav Veksler *
Response Rate: 8/39 (20.51 %)

5 - What changes, if any, would you like to see in this course?

Response Rate 8/39 (20.51%)

- Solo project instead of team
- DEFINETELY has to improve on the way the group assignments is created. Having to record each person doing each task is a bit too much. I think there needs to be a better design of the group projects.
- Make the class smaller, I would have preferred having creative freedom on my project.
- Class should be small in terms of numbers of students as well as length should be shorter.
- Less videos the lecture.
- Everything was 10/10
- None
- N/A

6 - What do you think are the instructor's strong points?

Response Rate 8/39 (20.51%)

- Presentaiton
- Explains things well. Is a nice person to all.
- Very knowledgeable about many different topics.
- Everything
- Introducing different topics
- 1. Technical 2. Had Slides for every topic 3. Opened up new avenues for learners
- Amazing Lectures, Lots of Experience, Understanding and easily accessible for any Questions
- Everything he is the best

7 - What do you think the instructor might do to be more effective?

Response Rate 8/39 (20.51%)

- None
- Not sure. It is pretty good
- Include definitions into the powerpoint, as I had to take notes on what it meant. Or by the time the professor explained what something was he had already moved on and I missed what he said.
- He is perfect.
- everything was good
- The professor was 10/10
- None
- N/A

8 - The instructor used class time well in developing the subject matter.

4 - What did you like about this course?

Response Rate 2/24 (8.33%)

- A great class coding caught my attention, I was able to comprehend many skills with python.
- I love programming and this course is all about programming.

5 - What changes, if any, would you like to see in this course?

Response Rate 2/24 (8.33%)

- N/A everything is understanding.
- I don't think there should be any changes in the programming.

6 - What do you think are the instructor's strong points?

Response Rate 2/24 (8.33%)

- Coding Skills Comprehension Preparation
- His teaching and presenting skills is his strongest points.

7 - What do you think the instructor might do to be more effective?

Response Rate 2/24 (8.33%)

- n/a
- He is good in each and everything.

8 - The instructor used class time well in developing the subject matter.

Course: CS1950022324FA: COMPUTER PROGRAMMING I - 002

Instructor: Vladislav Veksler *

Response Rate: 4/24 (16.67 %)

1 - Students's Academic Major or Program

Response Rate 4/24 (16.67%)

- Computer Science
- Computer science
- Computer Science
- Computer Science

2 - Anticipated Grade

Response Rate 4/24 (16.67%)

- 100
- A
- A
- A

3 - Why did you take this course? (Select as many as apply)

Response Option	Weight	Frequency	Percent	Percent Responses	
Elective	(1)	0	0.00%		
Required for Major	(2)	4	100.00%		
Required for Minor	(3)	0	0.00%		
Required for Core	(4)	0	0.00%		
Response Rate	4/24 (16.67%)				

4 - What did you like about this course?

Response Rate 4/24 (16.67%)

- The coding.
- Gives us chance to get an extra credit through our assignments.
- We always get assignments related to the topics and concepts we have learnt in the class, and the lab class always begins with a quiz which is one of the effective way to retain what we have learnt in the lecture class.
- Its related to my major

5 - What changes, if any, would you like to see in this course?

Response Rate 4/24 (16.67%)

- Quizzes exclusively on computer.
- Should have more time for lab than the theory class.
- The class is top notch for me, and it gets more interesting every single day.
- A

6 - What do you think are the instructor's strong points?

Response Rate 4/24 (16.67%)

- Student engagement.
- Can engage a lot of students for interactions in that big hall of class.
- His presentations are always self explanatory. His way of explaining any concept is also very simple that anyone can understand. He is very understanding in terms of assignments and works if anyone has any problem with it.
- B

Course: CS1950022324FA: COMPUTER PROGRAMMING I - 002

Instructor: Vladislav Veksler *

Response Rate: 4/24 (16.67 %)

7 - What do you think the instructor might do to be more effective?

Response Rate 4/24 (16.67%)

- None.
- Should consider the assignments based on the relative class topic.
- So far, I don't think there is anything that needs to be improved in the class.
- C

8 - The instructor used class time well in developing the subject matter.

Response Option	Weight	Frequency	Percent	Percent Responses	Means

Fall 2023 - Business and Computer Science Course Evaluations - F2F (Undergraduate)

Course: CS1950032324FA: COMPUTER PROGRAMMING I - 003
Instructor: Vladislav Veksler *
Response Rate: 4/23 (17.39 %)

1 - Students's Academic Major or Program

Response Rate 4/23 (17.39%)

- computer programming
- Computer Science
- Computer science
- Computer Science

2 - Anticipated Grade

Response Rate 4/23 (17.39%)

- A
- B
- A
- A

3 - Why did you take this course? (Select as many as apply)

Response Option	Weight	Frequency	Percent	Percent Responses	
Elective	(1)	0	0.00%		
Required for Major	(2)	4	100.00%		
Required for Minor	(3)	0	0.00%		
Required for Core	(4)	1	25.00%		
Response Rate	4/23 (17.39%)				

4 - What did you like about this course?

Response Rate 4/23 (17.39%)

- LOVED EVERYTHING
- This course has helped me build my programming skills.
- I like how it keeps me on my toes and challenges me. I'm starting to develop a keener interest in the field.
- coding

5 - What changes, if any, would you like to see in this course?

Response Rate 4/23 (17.39%)

- NTH
- nothing
- I wish the classes' durations were a bit longer and in depth
- nothing

6 - What do you think are the instructor's strong points?

Response Rate 4/23 (17.39%)

- Very Flexible
- He helps students provides feedback is always willing to work with us even outside of class.
- Professor Vlad is very charming and a pro at attention grabbing. He is also good at teaching complicated stuff in an easier manner!
- teaching and communication

7 - What do you think the instructor might do to be more effective?

Response Rate 4/23 (17.39%)

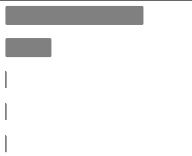

- no changes
- Nothing.
- Make everyone code with him in class, i feel like we just forget half of the stuff.
- all good

21 - Approximately how many hours per week outside of class did you spend on this course?

Response Rate	4/23 (17.39%)
• 6 • 4-5 • 15-20 • 5	

22 - Main text(s)

Response Rate	1/23 (4.35%)
• Didn't understand what to put in here	

23 - Tests

Response Rate	1/23 (4.35%)
• Tests went well	

24 - Supplementary Reading

Response Rate	1/23 (4.35%)
• Didn't do any	

25 - Use of Technology

Response Rate	1/23 (4.35%)
• Good	

26 - Projects

Response Rate	1/23 (4.35%)
• Great	

27 - Field Placement

Response Rate	1/23 (4.35%)
• Don't know so far	

28 - Labs

Response Rate	1/23 (4.35%)
• Good weekly labs	

Caldwell University

Fall 2023 - Business and Computer Science Course Evaluations - F2F (Undergraduate)

Course: CS2300012324FA: FRONT-END WEB DEVELOPMENT - 001
Instructor: Vladislav Veksler *
Response Rate: 2/22 (9.09 %)

1 - Students's Academic Major or Program

Response Rate 2/22 (9.09%)

- Bachelor In Computer Science
- Computer Science

2 - Anticipated Grade

Response Rate 2/22 (9.09%)

- A(4.0)
- A

3 - Why did you take this course? (Select as many as apply)

Response Option	Weight	Frequency	Percent	Percent Responses	
Elective	(1)	1	50.00%		
Required for Major	(2)	2	100.00%		
Required for Minor	(3)	0	0.00%		
Required for Core	(4)	0	0.00%		
Response Rate			2/22 (9.09%)		

4 - What did you like about this course?

Response Rate 2/22 (9.09%)

- Everything is good.
- How organized it was

5 - What changes, if any, would you like to see in this course?

Response Rate 2/22 (9.09%)

- No need to change anything.
- None

6 - What do you think are the instructor's strong points?

Response Rate 2/22 (9.09%)

- He is very friendly and calm.
- Everything was taught and then it came along with an example so it really helped with learning it

7 - What do you think the instructor might do to be more effective?

Response Rate 2/22 (9.09%)

- Everything is perfect.
- Nothing he was perfect

8 - The instructor used class time well in developing the subject matter.

3 - Why did you take this course? (Select as many as apply)

Response Option	Weight	Frequency	Percent	Percent Responses	
Elective	(1)	1	12.50%		
Required for Major	(2)	8	100.00%		
Required for Minor	(3)	0	0.00%		
Required for Core	(4)	0	0.00%		
Response Rate	8/24 (33.33%)				

4 - What did you like about this course?

Response Rate 8/24 (33.33%)

- Nothing, I have not understand anything yet and the professor does not teach well as well. Never knew my interest on programming would have been lost just due to a single class.
- Good for beginners
- This course introduces to basic computing world and helps to learn basics of Python, which can also be fundamental to learn other programming language. I liked how it is very basic (can be learned without any prior knowledge) and also goes with intermediate level of Python knowledge.
- more practical approach to learning.
- easy to undersand
- This course starts with the basics of Python, which is very helpful for students initially introduced to Computer Science.
- programming.
- It was interesting and different from my usual field of study.

Caldwell University
Spring 2024 - School of Business & CS Dept Course Evaluations
(Undergraduate) - F2F

Course: CS1950012324SP: COMPUTER PROGRAMMING I - 001
Instructor: Chon Lintakoon,Vladislav Veksler *
Response Rate: 8/24 (33.33 %)

5 - What changes, if any, would you like to see in this course?

Response Rate 8/24 (33.33%)

- Everything, most importantly the teaching methodology.
- Questions from within the syllabus and course materials
- CS-195 may focus more into roots of how computers were created and how programming works and to do that maybe Python contents could be reduced.
- More practical lab and personal guidance to the students. Class timing is not good.
- more practicals or practice of coursework by prof
- I would like to add more lab courses and practice materials.
- doing assignment and help practice coding in the class should be mandatory.
- The assignments should be taught how to do once in class before assigning them.

6 - What do you think are the instructor's strong points?

Response Rate 8/24 (33.33%)

- Strictness
- First few classes were good
- Plenty of extra credits. Punctual, disciplined.
- Theoretical knowledge delivery
- experience
- I don't feel instructor have any strong points.
- clearing points.
- They have experience of the real world.

7 - What do you think the instructor might do to be more effective?

Response Rate 8/24 (33.33%)

- Everything according to me.
- Review course materials beforehand Ask questions on tests from within the syllabus provide a study guide offer extra credits for projects Try to connect more with the students
- He can reduce this pace of teaching as he should also acknowledge each student has different prior knowledge and learning speed.
- provide more guidance to each student and provide more time to the class.
- be more flexible, less dependent on other profs, listen to the students, be fair, be more cooperative, be as serious abt the course as he claims to be
- Instructor need to prepare more for class. While teaching in class, instructor should focus more on the course-related materials rather than discussing class issues and problems.
- explaining points a little bit slowly with the help of coding.
- Change the format of the exams. True and False should not carry the same marks as codes in my opinion.

8 - The instructor used class time well in developing the subject matter.

Response Rate 4/54 (7.41%)

- Mathematics and Education
- Computer science
- Computer science and Arts
- Computer Science

2 - Anticipated Grade

Response Rate 4/54 (7.41%)

- A
- A
- A
- A

3 - Why did you take this course? (Select as many as apply)

Response Option	Weight	Frequency	Percent	Percent Responses	
Elective	(1)	1	25.00%		
Required for Major	(2)	4	100.00%		
Required for Minor	(3)	0	0.00%		
Required for Core	(4)	0	0.00%		
Response Rate	4/54 (7.41%)				

4 - What did you like about this course?

Response Rate 4/54 (7.41%)

- He's a good professor
- Course
- Professor is great
- I liked how this semester was a continuation of the last semester but essentially we were adding more and learning more code such as classes. I liked how visual basic had the assign option with the instructions and a section for your code as well as a tracker that keeps track of the last time your code was edited and afterwards you had the ability to continue with the code. Lab was very engaging and the TA's were always available whenever you needed their help.

5 - What changes, if any, would you like to see in this course?

Response Rate 4/54 (7.41%)

- None, really
- Nothing
- Longer labs
- I wouldnt change anything

6 - What do you think are the instructor's strong points?

Response Rate 4/54 (7.41%)

- Great guy
- Everything
- He doesn't get annoyed when questions are asked
- - Very engaging - Well prepared for the lectures as well as Lab - Very professional and knowledgeable - He cares about your well being and wants to see you succeed

Response Rate	22/52 (42.31%)				

4 - What did you like about this course?

Response Rate	22/52 (42.31%)
• I really like how slides are well made to make one understand the course and how every lecture can be reviewed at the end via lab and assignments. I feel course syllabus is well scheduled and gives proper time for each topic discussed in the class. • The coding lessons. • I love the structure of the course and its the new beginning so I love exploring the new thing. • I liked how the course was strongly oriented toward problem-solving and logical thinking. It is amazing how algorithms and programming languages, such as Python, could give a way to create practical solutions for real-world problems. The practical projects helped me put theoretical concepts into practice, making the learning process even more exciting and rewarding. Besides, the collaborative environment enhanced the teamwork, which improved my communication skills when collaborating on any coding challenge. • The course design and professor's way of teaching was very effective. The labs and quizzes perfectly summarized as well as synchronized the lessons discussed in class, making learning fun and interactive. • Everything. • Enjoyable and engaging learning. • Since, I was always been fascinated by the world of coding, I am delighted to learn new concepts of Python by such a great professor. • Everything that I get to learn. • Programming, I like coding. • I wanted to become a AI research scientist for that a computer course is required. And this course provide a broad foundation in the field of computer science which i like most about it. Also the course contain a base learning for the computer science major. • Teaching style Slides Quizzes Interactive learning • I have always been fascinated by coding and technology . There are several programs I attended which boost my interest towards technology. Especially , I wanted to learn more about cryptocurrency , block chain , AI and financial subject. So currently I have learned about python which can be used on AI so its pretty interesting to me. • The materials were interesting and easy to grasp in this course. • It is good to know a programming knowledge • Everything, Professor. V has amazing way of teaching • Teacher and learnings. • I liked that the course aligns with my major in Computer Science, as I enjoy coding and the subject matter. • It was so fun to learn about python and loops particularly. Something new I learnt coming from a different background. • Everything! • What I liked about this course was that the professor is an outstanding teacher who knows what he is doing and always offers help but this material was not for me. • I like the explanation of the things we talked about in class	

Course:CS1950032425FA: COMPUTER PROGRAMMING I - 003

Instructor:Vladislav Veksler *

Response Rate:22/52 (42.31 %)

5 - What changes, if any, would you like to see in this course?

Response Rate

22/52 (42.31%)

- I think the course schedule is all fine and well managed.
- N/A
- I would like to see if there is more elective courses rather than core courses .
- Could be more practical by engaging every student inn some kind of project.
- Everything, as of now, feels perfect.
- Little less quizzes.
- should make small class size to make class more engaging.
- Everything is great.
- Some courses on machine learning and cloud engineering
- No
- I think the lab workshop should be included.
- More Quizes The last classes when there were no quizzes the class was harder to focus on
- I want it to be more vast than only python but this is the course for freshman so its pretty good till now.
- None
- Divide based on skill level
- Nothing, its good.
- More content.
- Everything is good, but I would appreciate more hands-on coding exercises or real-world projects to apply what we've learned.
- Everything was really good.
- Nothing!
- I think he can maybe slow it down a little bit for people who are beginner.
- More hands on code writing with the teacher instead of just learning a bunch of information at once and doing 1 homework assignment on it

6 - What do you think are the instructor's strong points?

Response Rate

22/52 (42.31%)

- I also like how professor helps everyone understand the topic well and u really like how he explains the topics and makes the class interactive as possible.
- By guiding and teaching us the ways to use coding and showing us new ways of code.
- Instructor is so friendly and helpful.
- 1. Labs 2. Quizes 3. Communication 4. Assignments 5. Very Informative 6. The course was well organized by the instructor.
- Use of examples and his strong communication skills.
- Clear, concise and verbal.
- He is a good explainer and knows to how to make the class engaging
- His interactive learning techniques.
- He is well versed in his field.
- Ability to make us feel they are one of us.
- Our instructor's always talk about the job and interview questions which i like most about him.
- The way he teaches. Its fun and in a easy way
- He can explain the topics clearly and also makes class interesting.
- Fluency and Understanding
- Helps understand the material Very down to earth, personable, easy to talk to very resourceful and knowledgable
- Engaging class activity
- His explaining skills and his helpful, supportive nature
- The instructor's strong points are their excellent explaining skills, which capture students' attention and make the material really effective and easy to understand.
- Good communication skills and he also cared if the students are following with him which I liked a lot.
- He is good and teaching and helpful outside of the class too.
- I think his strong points are his lecturing
- Patience willingness to work with students Help

Instructor: Vladislav Veksler *
Response Rate: 22/52 (42.31 %)

7 - What do you think the instructor might do to be more effective?

Response Rate 22/52 (42.31%)

- Tests should include some questions from previous classes so that one might not forget and remember what they learned.
- N/A
- Everything is good .
- More Projects
- He is very effective professor and has a very good grasp over his material.
- Explain in much more detail.
- I have no complaints for me. He is one of the finest instructors I ever had.
- Everything is already perfect.
- Nothing as of now
- Nothing
- The instructor is awesome overall.
- More quizzes
- Try to compress class size
- Assignments
- Divide the class based on skill level and prior experience.
- Everything is amazing.
- Nothing
- The instructor is already excellent, so I don't think there's anything more they need to do.
- He was the best.
- Nothing!
- I don't think he has to really do anything he is very good at what he does.
- More Hands On Coding

8 - The instructor used class time well in developing the subject matter.

- 2

22 - Main text(s)

Response Rate 4/52 (7.69%)

- Hello world Chatbot F-strings Echobot Guess the number RPG Dice-Rolls Dice-Roll Counts and Probability Functions Import
- Applicable
- The materials provided by professor were resourceful and was effective for revisions as well as study sessions.
- The course material is all good and simple, easy to understand.

23 - Tests

Response Rate 6/52 (11.54%)

- Test #1 Test #2 Test #3 Test #4 Test #5 Test #6 Test #7 Test #8 Test #9 Test #10
- Applicable
- The setting of quizzes and examinations were based on knowledge discussed in class with emphasis on problem-solving as well as creative skillsets.
- The test system is good. But i think the test should be taken in the computer also.
- Were pretty good as it was after learning the course
- Tests are effective and cover the contents.

24 - Supplementary Reading

Response Rate 4/52 (7.69%)

- Lectures
- For supplementary reading, I find YouTube as an excellent platform.
- The book like things should be introduced so that we can read the topic more in details.
- Provided enough

Caldwell University

Fall 2024 - Business/CS - (Undergraduate) F2F

Course: CS1950032425FA: COMPUTER PROGRAMMING I - 003
Instructor: Vladislav Veksler *
Response Rate: 22/52 (42.31 %)

25 - Use of Technology

Response Rate 4/52 (7.69%)

- Visual Code Blackboard
- Applicable
- Even beyond regular lectures, our professor always included recent technological trends i.e. relevant sections that summarized the use and importance of the topic. Also the lecture hall's technology is well-equipped for our large class size.
- It's good, but an online compiler should be introduced so that we can be more familiar with it.

26 - Projects

Response Rate 5/52 (9.62%)

- Hackathon
- Applicable
- The assignments were creative and there were some very interesting topics to write codes on, which I enjoyed.
- The projects and assignment things are awesome.
- Not much

27 - Field Placement

Response Rate 3/52 (5.77%)

- N/A
- Utilization of the skillsets from this course shall be important for my personal projects and also further course works.
- Still undecided.

28 - Labs

Response Rate 6/52 (11.54%)

- Labs are fun and interactive, and we get to practice what we learned in the lecture.
- LectureAssign jupyter while, bool if, break investments lists, tuples, sets investment dictionary investment functions investment functions with args.
- Applicable
- The labs were interactive and based on real-world problems where we applied the contents discussed. Thank you!
- The lab things should be given to the students to complete on their own.
- Frequent

Response Rate:22/54 (40.74 %)

3 - Why did you take this course? (Select as many as apply)

Response Option	Weight	Frequency	Percent	Percent Responses	
Elective	(1)	2	9.09%		
Required for Major	(2)	21	95.45%		
Required for Minor	(3)	0	0.00%		
Required for Core	(4)	3	13.64%		
Response Rate	22/54 (40.74%)				

4 - What did you like about this course?

Response Rate	22/54 (40.74%)
• All the course design are fantastic. Also, I love professor Vladislav Veksler the way he teach us is unique and more effective. Also, I want to thank our TA. • This course includes programming languages, which are essential for fulfilling my major. • Opportunities and the knowledge of technology. Moreover, the popular programming language, Python, which is taught in this course really helped me to expand my knowledge in the field of programming. • This course is well structured by instructor. • The teacher • Pretty good • Everything in general • everything • helpful, talented and cooperative professor • I like to learn programming. • Everything that prof. vlad taught us in an interactive way • I like everything as I am a computer science major and interested in programming. • I enjoyed the computer programming course because it taught me how to solve problems logically and build practical solutions, which was both challenging and rewarding. The hands-on projects allowed me to be creative and see the real-world impact of my work. • The professor was understanding and communicating with me personally • Every Content • I loved the fact how Professor Veksler taught the lectures so well and was open to help outside of class as well. I myself have gone to 2 appointments outside of class and each time I went I got the necessary steps and help I needed. • I liked its pace, i feel as the professor taught everything at a good speed, not to fast and not to slow • Everything is really interesting when it's taught by Prof. Vlad, he makes harder content easier to understand. • It's fun learning about the things that is not related to your major. • Professor is amazing • The teacher goes through everything and makes sure everyone understands • I liked how the course covered fundamental programming concepts and problem-solving skills, with hands-on practice that helped solidify my understanding.

Instructor:Vladislav Veksler *

Response Rate:22/54 (40.74 %)

5 - What changes, if any, would you like to see in this course?

Response Rate	22/54 (40.74%)
• nothing, i just want small size of computer programming II. • The class size should be decreased , because it is overcrowded and this makes class less interactive. There should be more practical approach rather than lectures because it is a technical course and its more interactive if it is taught more practically. • More Group based projects. • N/A • Nothing • More student inclusive • It would be nice if I/O would have taught and basic understanding of OOPS and same in the second semester basic understanding of DSA in the last one month. • nothing • Need workshops on different topic related to my majors • Everything is very good. • more contents and three initial lectures should be covered in 1 lectures • No changes. The course is already well planned. • none • Nothing • not any • I wouldn't want any changes. Professor Veksler teaches well and makes the lectures understandable for us students. • I would only prefer a little more study guides a review for the quizzes • Giving more coding projects to novices because doing the assignments might not make you a coder which will be the ultimate goal for most of the computer science student. • Maybe, making class more cooperative. • Small class size • Nothing • Nothing at all.	

6 - What do you think are the instructor's strong points?

Response Rate	22/54 (40.74%)
• Helpful and have outstanding problem solving skills. • Talented, Good communicator, excellent teaching skills and very knowledgable in their field. • Friendly, Concise and clarity • His teaching ability; assignments, quiz, and exams are highly effective • Knows how to teach • Good explanation • Everthing he is too god. • his convincing skill • strict to the code and conduct • He clarifies the topics and new things very nicely. • his teaching style way of preparing us for interview reminding again and again also labs and quizzes • The strong point is his experience and expertise in the related field. • The instructor's strong points include their ability to explain complex concepts in a clear and engaging manner, making the material easy to understand. They were also approachable and supportive, fostering a positive learning environment and encouraging students to ask questions and explore ideas. • Making sure that you understand what he is saying • helping nature in solving various problems • Professor Veksler is great at his work, cracks jokes in between so the students don't feel too overwhelmed by the amount of topics each lecture covers, is open to help outside of class, and makes lectures pretty understandable. • His ability to talk to his students and how he was able to explain and teach everything very clear • He's very good at his job. • Complete assignments on time. Focus on class. • He explains very clearly • He's very friendly helpful and makes helps us to do most of the work in class • The professor is very knowledgeable, provides clear explanations, and is always willing to offer extra help when needed.

Response Rate: 22/54 (40.74 %)

7 - What do you think the instructor might do to be more effective?

Response Rate 22/54 (40.74%)

- I don't think he have to improve.
- Overall its good.
- Give more group based projects
- The labs that he is doing in this class can be more effective, I see most people just copy paste and submit.
- Revive more
- Creative assignments
- Nothing much more. He is the most effective person in the whole college
- he is already more than effective
- giving less pressure of assignment
- He is really good in his way of teaching.
- three initial lectures should be covered in 1 lectures
- He is already very effective.
- none
- Nothing he was perfect
- not any
- None that I can think of since Professor Veksler already does a pretty good job.
- Im not sure
- He's good at everything.
- Making the class cooperative.
- Go individually during lectures
- He's one of the best
- There isn't anything for recommendation to improve the instructor. He is perfect and knows the way how we can learn properly.

8 - The instructor used class time well in developing the subject matter.

Instructor: Vladislav Veksler *
Response Rate: 22/54 (40.74 %)

25 - Use of Technology

Response Rate 5/54 (9.26%)

- good
- need good wifi connection
- I feel like the use of laptops, projector, and big monitors helped us understand the materials provided by our professor.
- Top Notch.
- Good

26 - Projects

Response Rate 4/54 (7.41%)

- satisfactory
- Although there were not many projects, I really got engaged in the activities this course provided and was helpful to me.
- Good.
- Good

27 - Field Placement

Response Rate 3/54 (5.56%)

- good
- As someone new to programming, I feel like I got used to Python though this course which was a very big thing in the field of programming.
- Good

28 - Labs

Response Rate 3/54 (5.56%)

- good
- The labs were very useful for understanding the theory classes and I got used to programming language like python.
- Good

3 - Why did you take this course? (Select as many as apply)

Response Option	Weight	Frequency	Percent	Percent Responses	
Elective	(1)	2	33.33%		
Required for Major	(2)	5	83.33%		
Required for Minor	(3)	0	0.00%		
Required for Core	(4)	0	0.00%		
Response Rate	6/36 (16.67%)				

4 - What did you like about this course?

Response Rate6/36 (16.67%)

- Very hands-on learning activities.
- lab work and project
- Even an entry-level programmer or those who are completely new to the topic can understand the course very well and understand the concept.
- I really enjoyed the Front-End Web Development course with Professor Vlad. His active participation and hands-on approach in the labs made the learning experience engaging and practical. We were able to apply concepts immediately, building real projects with HTML, CSS, and JavaScript. The labs helped reinforce our skills, and the interactive nature of the course made it easy to grasp both the creative and technical aspects of web development. Professor Vlad's support and guidance throughout the course kept us motivated and on track.
- All the things from learning through lectures and lab.
- I liked how the lectures and labs were set up. The labs would really help with doing assignments and the slides as well.

5 - What changes, if any, would you like to see in this course?

Response Rate6/36 (16.67%)

- I would add one more project mid-way through the course. Also, the Teaching Assistant of the course can be more professional and respectful towards the students when he is taking over to cover a topic, he was rude and disrespectful towards students when he took over for a couple of lab sessions.
- two days class instead of one day long more than 2 hr class.
- Applications on real world could be enhanced
- Incorporating more real-world case studies or working on group projects could help simulate a professional development environment and enhance collaboration skills.
- -
- N/A

Course: CS2300012425FA: FRONT-END WEB DEVELOPMENT - 001

Instructor: Vladislav Veksler *

Response Rate: 6/36 (16.67 %)

6 - What do you think are the instructor's strong points?

Response Rate	6/36 (16.67%)
• He is very good at focusing on the practical materials and going through each step of the process. • way of teaching style • Engaging lectures, Extremely good lab. • Professor Vlad's main focus was on mastering the fundamentals of front-end development—HTML, CSS, and JavaScript—while emphasizing user experience, responsiveness, and accessibility. Through hands-on labs and active participation, he ensured we could apply what we learned to real-world projects, preparing us for success in web development. • Prof. Veksler is the best when it comes to making the subject matter clear or helping students out. • Great at teaching a hard subject and made it understandable Class was never boring	

7 - What do you think the instructor might do to be more effective?

Response Rate	6/36 (16.67%)
• Provide resources to students to explore a bit more on the practical side of the course. • group project • Focus on every student. • THE BEST • - • N/A	

8 - The instructor used class time well in developing the subject matter.

3 - Why did you take this course? (Select as many as apply)

Response Option	Weight	Frequency	Percent	Percent Responses	
Elective	(1)	1	25.00%		
Required for Major	(2)	2	50.00%		
Required for Minor	(3)	0	0.00%		
Required for Core	(4)	1	25.00%		
Response Rate	4/17 (23.53%)				

4 - What did you like about this course?

Response Rate

4/17 (23.53%)

- Class is really fun, you actually learn something in this class while also enjoying.
- It taught me so much about A.I and how it is every where and been here for a while
- Loved the course's manner in going into the details of artificial intelligence and how we could work on building simple versions of machine learning models and AI. The thought-provocative lessons were equipped with great lab sessions.
- This course allowed me to discover my interest on Artificial Intelligence. I finally have a good headstart.

5 - What changes, if any, would you like to see in this course?

Response Rate

4/17 (23.53%)

- Some more understanding of the code we are doing in class.
- None
- Would like to see a bit more on real-time training with some real data from a certain database.
- Nothing

6 - What do you think are the instructor's strong points?

Response Rate

4/17 (23.53%)

- He is very engaging, funny, knows how to keep everyone attentive. Really great professor overall, and I believe everyone is taking back some knowledge from his class.
- His lectures are great and he feels for the students success
- His clear enunciation and understanding of the course which allowed him to explain concepts in a very simple manner.
- Clear speech Very knowledgeable Flexible Understanding

Course: CS4200012425FA: ARTIFICIAL INTELLIGENCE - 001
Instructor: Vladislav Veksler *
Response Rate: 4/17 (23.53 %)

7 - What do you think the instructor might do to be more effective?

Response Rate 4/17 (23.53%)

- Just the code part, everything else is great!!
- None
- He can bring some real-life data and use it make an AI model in one of the labs.
- Already super effective

8 - The instructor used class time well in developing the subject matter.

Response Option	Weight	Frequency	Percent	Percent Responses	Means

4 - What did you like about this course?

Response Rate8/25 (32%)

- Made me more interested in web development.
- Continuation of front-end, really amazing course
- his lectures.
- I really enjoyed how this course covered both front-end and back-end development in a well-structured and approachable way. Professor Veksler explained complex topics clearly and provided practical projects that helped build real-world skills. I appreciated how the course emphasized both technical proficiency and good coding practices.
- Professor Style of teaching
- I really enjoyed the hands-on approach to learning full-stack development. Building a complete web app from frontend to backend gave me practical skills that I can apply to real-world projects. The structure of lectures and assignments made complex topics easier to understand.
- I learnt how to build fullstack applications and enjoyed doing the final project.
- This course gave a very practical introduction to modern full-stack development. I especially appreciated the flexibility in how we tackled projects, which allowed us to explore JavaScript frameworks, backend APIs, and databases in a real-world context. I also enjoyed the hands-on style of learning through building actual apps.

Course:CS3550012425SP: FULL-STACK WEB DEVELOPMENT - 001

Instructor:Vladislav Veksler *

Response Rate:8/25 (32.00 %)

5 - What changes, if any, would you like to see in this course?

Response Rate	8/25 (32%)
• Two days of classes • More Interactive labs, more time perhaps • None he is perfect! • The course was very well-organized. One suggestion would be to include even more full-stack project examples, especially ones integrating newer technologies like React, Node.js, and cloud deployment, to further deepen real-world experience. • None • A little more time or guidance on deploying projects and setting up production environments would be helpful. Also, more feedback on project work would make learning even more effective. • NA • A bit more structure around project expectations and deadlines would be helpful. Sometimes it felt like we needed clearer rubrics or guidance upfront. I also wish there were more guided coding sessions or live examples, especially for the more complex parts of the stack. Additionally, the TA experience wasn't great. There were a few instances where assignments weren't marked properly or fairly, which left me feeling discouraged and drained. I had put in real effort, only to feel like it wasn't evaluated thoughtfully. Some feedback felt inconsistent or lacking, which definitely affected my energy in the class.	

6 - What do you think are the instructor's strong points?

Response Rate	8/25 (32%)
• Way of Teaching • Interactive learning • How well he explains the course. • Professor Veksler's strong points include excellent clarity in teaching, strong encouragement of problem-solving, and his ability to make both front-end and back-end concepts accessible to all students. His passion for web development really made the class engaging and motivating. • Labs • Dr. Veksler is very knowledgeable and communicates concepts clearly. He's supportive, approachable, and provides valuable real-world context. His lectures were always structured and engaging, especially when explaining backend logic and server-side concepts. • He is very enthusiastic about teaching and has the ability to generate excitement in students. He blends humor seamlessly with his teaching which makes his classes all the more fun. • The professor knows the subject extremely well and gave us the freedom to explore and grow as developers. They were open to questions and gave insightful feedback on projects.	

7 - What do you think the instructor might do to be more effective?

Response Rate	8/25 (32%)
• Decrease the pace of lab time • . • The whole school and professor has been providing us with enough resources for this course. • Professor Veksler was highly effective. To make the course even better, offering optional advanced challenges for students who want to dive deeper into full-stack topics could be a great addition. • nothing really i think he is really good • A few more live coding sessions or walkthroughs would help reinforce concepts. Some parts of the course moved quickly, so a bit more time for practice during class would be appreciated. • NA • More structured guidance on projects and clearer grading criteria would improve the experience. Also, providing oversight on the TA's grading would be helpful to ensure fair and consistent evaluations. A bit more in-class walkthroughs or coding demos would also help reinforce the material better for some students.	

8 - The instructor used class time well in developing the subject matter.

Spring 2025 - Business/CS - (Undergraduate) F2F

Course: CS1960022425SP: COMPUTER PROGRAMMING II - 002
Instructor: Vladislav Veksler *
Response Rate: 6/36 (16.67 %)

1 - Students's Academic Major or Program

Response Rate 6/36 (16.67%)

- Computer Science
- Computer Science and Finance
- Computer Science
- Computer Science
- Mathematics + Computer Science
- Computer science

2 - Anticipated Grade

Response Rate 6/36 (16.67%)

- 3.95
- A
- 3.9
- A-
- A
- A

3 - Why did you take this course? (Select as many as apply)

Response Option	Weight	Frequency	Percent	Percent Responses	
Elective	(1)	0	0.00%		
Required for Major	(2)	6	100.00%		
Required for Minor	(3)	0	0.00%		
Required for Core	(4)	0	0.00%		
Response Rate	6/36 (16.67%)				

4 - What did you like about this course?

Response Rate 6/36 (16.67%)

- Everything.
- The focus on object-oriented programming concepts like inheritance, encapsulation, and polymorphism helped me understand how to structure code more efficiently. I also appreciated the hands-on assignments and projects, which made the concepts clearer and more practical.
- The concepts and learning objectives.
- The course followed seamlessly from CS 196 and expanded more on the basic stuff we learnt on the first semester. The lab and the quizzes and the lectures were all very well prepared and very detailed.
- The content and large class environment.
- Programming, syllabus

5 - What changes, if any, would you like to see in this course?

Response Rate 6/36 (16.67%)

- Nothing
- More focused on practical knowledge
- I would like to see more projects to be done by us.
- I would love to see more labs and more assignments or projects for us to do to improve our skills outside the class.
- Everything is perfect as is. But would enjoy to see some group projects.
- Not any

Caldwell University

Spring 2025 - Business/CS - (Undergraduate) F2F

Course: CS1960022425SP: COMPUTER PROGRAMMING II - 002
Instructor: Vladislav Veksler *
Response Rate: 6/36 (16.67 %)

6 - What do you think are the instructor's strong points?

Response Rate 6/36 (16.67%)

- He encourages everyone to be best in CS field by every means, he is suitable to teach everyone academically strong or weak students.
- Way of presentation
- He is clear and concise. Explains course materials very efficiently.
- Dr veksler is an amazing professor. His teaching style is fun, energetic and he makes his point very clear. He is also very reachable outside of class to help with assignments or projects.
- Dr. Veksler is really passionate about CS and his presence energizes the entire class. He has both the knowledge and the skills to delivering it which benefits the students.
- Not any

7 - What do you think the instructor might do to be more effective?

Response Rate 6/36 (16.67%)

- Nothing that I know
- more practical
- Give more creative learning goals.
- Frankly there is nothing I want to change about the instructor or his teaching style.
- He is already the best.
- Not any

8 - The instructor used class time well in developing the subject matter.

Response Rate	13/24 (54.17%)
• Hoping to get extra credit so that i will be able to improve my grades if Incase i am not able to perform as I expected.Overall,they way instructors present and guide is tremendous truly appreciate!! • It's pretty engaging and Professor Veksler ensures that lecture content is thoroughly explained. • I feel very fulfilled and good taking this course. • no • I enjoyed it a lot and learned a lot of things that I never thought I would be doing. • Nothing • N/A • I've been enjoying the class so far. The lectures are clear, and the examples in class make it easier to understand the coding concepts. I also appreciate how the instructor is willing to answer questions and explain things when we're confused. Sometimes the assignments can be a bit challenging, but they really help me practice what we learn in class. • nop • nope • This course has really helped me learn the basics of coding. • This was a very informative class. • no

4 - What did you like about this course?

Response Rate 8/24 (33.33%)

- Professor taught well and the lesson was enjoyable.
- I was nervous going into this course because I had never done coding before, but Professor Vlad and his way of teaching makes it easy.
- Coding is the most love part in computer science.
- Its my favourite course and aligns with my future goal.
- I like how the professor taught the lessons and how he made the assignments.
- I like coding and the professor's teaching method
- Coding
- the way we learn to code

5 - What changes, if any, would you like to see in this course?

Response Rate	8/24 (33.33%)
• None, they are perfect as is • None come to mind. • Adding more practice examples or review sheets for major concepts would make it easier to prepare for quizzes and exams. • everything is perfect • None. • nothing • none • In my personal opinion, having a test once a week plus a lab on the same day is a little too much, it should be one Monday focused on lab work, explaining everything clearly, and the following Monday the test	

6 - What do you think are the instructor's strong points?

Response Rate	8/24 (33.33%)
• All the above • Always offering to go back and go over topics as many times as it takes, to ensure everyone understands. • The instructor explains concepts clearly, is patient when students need extra help, and creates a positive atmosphere that makes it easy to ask questions. • Explanation • Always had this positive energy and was really easygoing and helpful. • unique teaching style, attentive • speaking • He is patient, explains things well, and is a good person	

7 - What do you think the instructor might do to be more effective?

Response Rate	8/24 (33.33%)
• Null • Nothing comes to mind. • Adding more practice test and review every content discussed on previous lecture before starting new one might be effective to catch up new things. • make the pace little bit slow • Nothing. • professor should run the program so we can see the output • he is good • Go a little slower. There were several times, especially during the lab days, when he spoke very fast or moved too quickly, and both I and other classmates sometimes fell behind.	

8 - The instructor used class time well in developing the subject matter.

Caldwell University

Fall 2025 - Business/CS - Session C (Undergraduate) F2F

Course: CS1950012526FA: COMPUTER PROGRAMMING I - 001
Instructor: Vladislav Veksler *
Response Rate: 8/24 (33.33 %)

21 - Approximately how many hours per week outside of class did you spend on this course?

Response Rate 8/24 (33.33%)

- 0.01
- 2-3
- 7 hours
- 10
- Roughly 1-3 Hours.
- 5-10 hr
- 3
- 1

22 - Main text(s)

Response Rate 2/24 (8.33%)

- None
- The main course materials were clear and helpful. The readings supported the lectures well and made it easier to understand the key concepts.

23 - Tests

Response Rate 3/24 (12.5%)

- Good
- Tests are weekly, no more than five questions. Advice is offered if needed.
- The tests were fair and aligned with the material taught in class. The questions reflected what we practiced in assignments and lectures.

24 - Supplementary Reading

Response Rate 2/24 (8.33%)

- None
- The supplementary readings were helpful and supported the main lessons well.

25 - Use of Technology

Response Rate 3/24 (12.5%)

- Amazing
- Everyone was taught how to download Python on the first day of class.
- The technology used in the course work was effective and made the course work easy to access and complete.

26 - Projects

Response Rate 2/24 (8.33%)

- Good
- not experienced yet.

27 - Field Placement

Response Rate 2/24 (8.33%)

- None
- not experienced

28 - Labs

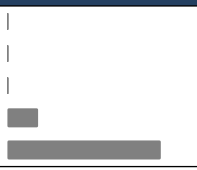

Response Rate 3/24 (12.5%)

- Good
- The labs were straightforward and helped me practice the material hands-on
- Fun and interactive and really gave me a feel on how it felt to code since I had no prior experience.

Caldwell University

14 - Is there anything else you'd like to share about your experience in this course?

Response Rate	6/14 (42.86%)
• No everything is perfect. • Everything is going perfect so far. • No • Prof. Vlad is such a nice guy. He is always ready to help you whether its in class or outside the class. The energy he has, he really makes every lectures interesting and worth it. • I really enjoy his way of teaching. • no	

Course: CS1950022526FA: COMPUTER PROGRAMMING I - 002
Instructor: Vladislav Veksler *
Response Rate: 3/13 (23.08 %)

1 - Students's Academic Major or Program

Response Rate 3/13 (23.08%)

- Computer Science
- CS - 195
- Computer Science

2 - Anticipated Grade

Response Rate 3/13 (23.08%)

- A
- A
- A

3 - Why did you take this course? (Select as many as apply)

Response Option	Weight	Frequency	Percent	Percent Responses	
Elective	(1)	0	0.00%		
Required for Major	(2)	3	100.00%		
Required for Minor	(3)	0	0.00%		
Required for Core	(4)	1	33.33%		
Response Rate	3/13 (23.08%)				

4 - What did you like about this course?

Response Rate 3/13 (23.08%)

- The course isn't really hard, but our professor still makes it easier by the way he teaches and assignments he gives.
- Learning to code.
- Intro to programming, it goes from basic concepts of loops.

5 - What changes, if any, would you like to see in this course?

Response Rate 3/13 (23.08%)

- None.
- Extensions of due dates.
- More projects and harder coding tests. Maybe questions like doing factorial of a number, pattern questions which makes a student think more

6 - What do you think are the instructor's strong points?

Response Rate 3/13 (23.08%)

- Good lectures. Follow up homework. Quiz following class after lecture.
- We can ask when we need help or anything.
- easy to understand, engaging and overall ready to repeat something when somebody doesnt understand a topic

7 - What do you think the instructor might do to be more effective?

Response Rate 3/13 (23.08%)

- None.
- He's fine. Nothing has to change.
- Focus more on more complex problems too. otherthan that, everything is great.

Response Option	Weight	Frequency	Percent	Percent Responses	
Elective	(1)	3	50.00%		
Required for Major	(2)	3	50.00%		
Required for Minor	(3)	0	0.00%		
Required for Core	(4)	0	0.00%		
Response Rate	6/24 (25%)				

4 - What did you like about this course?

Response Rate6/24 (25%)

- .
- I learned about how app works in real.
- I liked how the course was very hands-on and helped me learn real UI/UX design skills like wireframing, prototyping, and improving user experience through practical projects.
- The designing part of this course is the thing I liked the most in this course. I loved using Figma and designing apps.
- I really enjoyed the whole course and learning about the different topics within UI/UX design. It was a very interactive course and was very interesting and engaging. I liked the coursework and the final project, I had much fun.
- I liked learning about UI/UX and wireflows.

5 - What changes, if any, would you like to see in this course?

Response Rate6/24 (25%)

- .
- more projects
- I would like more real-world project examples and detailed feedback on designs so I can better understand how to improve my UI/UX work.
- less lectures please
- Nothing
- I do not think there needs to be any changes in this course.

Caldwell University

Spring 2026 - Business/CS - (Undergraduate) F2F

Course: CS2420012526SP: UI/UX HUMAN-CENTERED DESIGN - 001
Instructor: Vladislav Veksler *
Response Rate: 6/24 (25.00 %)

6 - What do you think are the instructor's strong points?

Response Rate 6/24 (25%)

- .
- nice talking
- The instructor explains UI/UX concepts clearly and gives useful guidance on design principles, which helps in improving practical skills during projects.
- communication, clarity and knowledge
- Dr. Veksler is a very fun professor. He makes class very engaging and really did enjoy every class. Professor Dong also was very knowledgeable with Figma, as her lectures were very informative and also interactive. I learned much about this topic with both professors.
- I think the instructor's strong points are having a clear tone of voice and giving good feedback to students.

7 - What do you think the instructor might do to be more effective?

Response Rate 6/24 (25%)

- .
- more projects
- The instructor could provide more detailed feedback on individual designs and include more real-world case studies or examples to better connect concepts to actual UI/UX work.
- include more practical lessons
- Nothing.
- I do not think the instructor needs to do anything to be more effective.

8 - The instructor used class time well in developing the subject matter.

Response Rate	10/24 (41.67%)				

4 - What did you like about this course?

Response Rate 10/24 (41.67%)

- pretty much everything
- The new information we learned was easy to understand because it was explained so well. And the projects were fun and taught us new things
- He is a very friendly and informative teacher.
- good lessons to learn
- The professor
- The way Vlad teaches.
- Interactive & engaging with current subject topics and updates
- It was a requirement for my Major.
- It was very intuitive and fun! The professor is lively and always willing to help others.
- I liked that the course helped me develop stronger coding skills and a deeper understanding of programming concepts. I also enjoyed creating projects and games, because they made the learning process more interactive and practical.

Caldwell University

Spring 2026 - Business/CS - (Undergraduate) F2F

Course: CS1960012526SP: COMPUTER PROGRAMMING II - 001
Instructor: Vladislav Veksler *
Response Rate: 10/24 (41.67 %)

21 - Approximately how many hours per week outside of class did you spend on this course?

Response Rate 10/24 (41.67%)

- 2 to 3
- more than 10-15 hours depending on the week
- 4-6
- 7
- 5-6
- 10
- 3
- 4-5 Hours
- Around 5-10 I think depending on hw and projects.
- 5

22 - Main text(s)

Response Rate 1/24 (4.17%)

- Main texts??

23 - Tests

Response Rate 2/24 (8.33%)

- It would be nice if there was some kind of extra credit work
- This was my weak point in the class but it was good none the less. I liked the coding exam and the midterm. Being on both sides of it one being the interpreter and the programmer is a good way to test your skills.

24 - Supplementary Reading

Response Rate 0/24 (0%)

25 - Use of Technology

Response Rate 0/24 (0%)

26 - Projects

Response Rate 1/24 (4.17%)

- These were fun! I very much enjoyed them. I liked the creative freedom in them. I wish there were sessions where students can help each other and bounce ideas off of each other. A group programming project would be a good idea maybe.

27 - Field Placement

Response Rate 0/24 (0%)

28 - Labs

Response Rate 1/24 (4.17%)

- These were cool, fun little projects throughout the course, I kinda wish there were a bit more, maybe one every other week combining the things covered in the last two lectures.

Course:CS3550012526SP: FULL-STACK WEB DEVELOPMENT - 001

Instructor:Vladislav Veksler *

Response Rate:1/11 (9.09 %)

1 - Students's Academic Major or Program

Response Rate1/11 (9.09%)

• Computer Science, Psychology

2 - Anticipated Grade

Response Rate1/11 (9.09%)

• 4.00

3 - Why did you take this course? (Select as many as apply)

Response Option	Weight	Frequency	Percent	Percent Responses	
Elective	(1)	1	100.00%		
Required for Major	(2)	0	0.00%		
Required for Minor	(3)	0	0.00%		
Required for Core	(4)	0	0.00%		
Response Rate	1/11 (9.09%)				

4 - What did you like about this course?

Response Rate1/11 (9.09%)

• It was a very clear and concise class.

5 - What changes, if any, would you like to see in this course?

Response Rate1/11 (9.09%)

• None

6 - What do you think are the instructor's strong points?

Response Rate1/11 (9.09%)

• He was super interactive and energetic and he would always encourage to question and participate in class.

7 - What do you think the instructor might do to be more effective?

Response Rate1/11 (9.09%)

• None

8 - The instructor used class time well in developing the subject matter.

Response Rate 3/23 (13.04%)

- A
- A
- A

3 - Why did you take this course? (Select as many as apply)

Response Option	Weight	Frequency	Percent	Percent Responses
Elective	(1)	0	0.00%	
Required for Major	(2)	3	100.00%	
Required for Minor	(3)	0	0.00%	
Required for Core	(4)	0	0.00%	
Response Rate	3/23 (13.04%)			

4 - What did you like about this course?

Response Rate 3/23 (13.04%)

- Professor is amazing.
- self paced
- The professional setting to brainstorm ideas for the project, work together in a team, submit weekly deliverables and utilize Scrum to manage the workflow was extremely insightful experience.

5 - What changes, if any, would you like to see in this course?

Response Rate 3/23 (13.04%)

- Nothing.
- n/a
- Maybe a few lectures from an industry professional about their experiences in delivering an app or product would have been insightful. Similar to the Special Topics class, I think it will be helpful to have such mentorship/lecture once or twice a semester.

6 - What do you think are the instructor's strong points?

Response Rate 3/23 (13.04%)

- He is extremely hardworking and allows us space to explore and think critically, I have taken his class almost all the time throughout my undergrad.
- He was very helpful whenever we needed him
- Great in giving us the flexibility to work independently but also being there when we needed help or guidance.

7 - What do you think the instructor might do to be more effective?

Response Rate 3/23 (13.04%)

- He is great!
- n/a
- Nothing, he is GREAT!
