

Curriculum Vitae
Vladislav Daniel Veksler, Ph.D.
Assistant Professor of Computer Science
Caldwell University
vveksler@caldwell.edu

EDUCATION

Doctor of Philosophy: Rensselaer Polytechnic Institute (Troy, NY), December 2009

Major: Cognitive Science

Advisor: Wayne D. Gray

Master of Science: Rensselaer Polytechnic Institute (Troy, NY), May 2006

Major: Cognitive Science

Advisor: Wayne D. Gray

Bachelor of Arts: Rutgers University (New Brunswick, NJ), May 1999

Majors: Computer Science; Psychology

Undergraduate Honors Thesis Advisor: Jacob Feldman

PROFESSIONAL EXPERIENCE

(2022 – Present) Caldwell University, Caldwell, NJ

Assistant Professor of Computer Science

Alvin R. Calman Endowed Chair

Director of C-STEM Laboratories

Director of CogAI Research Laboratory

Co-director of the Center for Teaching and Learning

(2014 – 2022) DCS Corp, U.S. Army Research Laboratory / CCDC Data & Analysis Center, Aberdeen, MD

Researcher Scientist

(2020 – 2022) Bloomfield College, Bloomfield, NJ

Adjunct Professor of Computer Science

(2011 – 2014) U.S. Air Force Research Laboratory, Human Effectiveness Directorate, WPAFB, OH

Post-doctoral Research Fellow (Advisor: Kevin A. Gluck)

(2009 – 2011) Rensselaer Polytechnic Institute, Troy, NY

Lecturer

(2002 – 2003) Freelance, Remote

Software Engineer

(1998 – 2001) Telcordia Technologies, SAIC, Piscataway, NJ and Morristown, NJ

Software Engineer

(1997) American ReInsurance, Princeton, NJ

Programmer

(1995 – 1997) GE/RCA Licensing, Princeton, NJ

Web Development and PC-Network Support

TEACHING EXPERIENCE

Caldwell University

Courses taught: Research in Computer Science I, Research in Computer Science II, Software Engineering Capstone, Artificial Intelligence, Front-end Web Development, Full-stack Web Development, Computer Programming I, Computer Programming II, UI/UX Human-Centered Design, Business Spreadsheets, First-Year Seminar

Average overall rating on student opinion reports: 4.9 out of 5.0

Five-time Excellence in Teaching Award nominee (2022, 2023, 2024, 2025, 2026).

Bloomfield College

Courses taught: Artificial Intelligence, Databases, Full-Stack Web Development, Human Computer Interaction.

Rensselaer Polytechnic Institute

Courses taught: Programming for Cognitive Science and Artificial Intelligence, Cognitive Robotics, Computational Models of Semantic Relatedness, Cognitive Engineering, Cognitive Psychology

Independent Study Advisor:

Computer Vision (Shane Reilly, Cristopher Ryther)

Guest lecturer:

Language and Language Modeling for undergraduate course *LISP for AI*

Memory & Learning for undergraduate course *Introduction to Cognitive Science*

CURRICULUM DEVELOPMENT

Curriculum Development at Caldwell University

Major contributor on a proposal for MS in Computer Science graduate program at Caldwell University

Contributed to developing a new STEM MBA graduate program at Caldwell University

Redesigned Computer Science major

Developed new multidisciplinary minor – Human-Computer Interaction

Developed new undergraduate courses –

AI Essentials, UI/UX Human-centered design, Computational Models and Simulations, Computer Programming Accelerated, Research in Computer Science

Developed new graduate courses –

Machine Learning, AI Engineering and Generative Systems, Programming for Business, Leveraging Artificial Intelligence for Competitive Advantage, Computational Models & Simulations

Redesigned Computer Programming I, Computer Programming II, Front-end Web Development, and Full-stack Web Development courses

PROFESSIONAL SERVICE

Institutional Review Board member, Caldwell University (2022-present)

Co-director of the Center for Teaching and Learning, Caldwell University (2024-2026)

Co-chair of Faculty Development Committee, Caldwell University (2024-2026)

Hiring search committees

Committee chair for the Dean of School of Arts & Sciences position, search committee member for Experimental Psychology, and twice for Computer Science

Perennial Research Judge for the Caldwell Research and Creative Arts Day (2022-present)

Invited talk on Generative AI in Education; presented at the Lacordaire Academy, Montclair, NJ

Grant mid-term review, Multidisciplinary University Research Initiative, Army Research Office

Grant proposal review, Broad Agency Announcement, Air Force Office of Scientific Research

Grant proposal review, SBIR/STTR, Air Force Research Laboratory

Ad hoc reviews: Cognitive Science Journal, Topics in Cognitive Science Journal, Annual Meeting of the Cognitive Science Society Conference, International Conference on Cognitive Modeling

UNDERGRADUATE RESEARCH ADVISING

Founder and director of C-STEM Laboratories interdisciplinary computational R&D center at Caldwell University.

Founder and director of Cog-AI Computing Research Laboratory at Caldwell University.

Advising multiple undergraduate research assistants each semester across a variety of research topics within the fields of Artificial Intelligence and Human-Computer Interaction. Major topics include computational efficiency in neural networks, AI-based plagiarism detection, accessibility issues in computer programming, and standardization of program-UI interactions.

Caldwell University

Have advised undergraduate students on nearly one hundred projects and summer research proposals.

Notable student accomplishments (legend below):

Nika Gedenidze^{*†P}, Rishikesh Yadav^{*†P}, Nathan Ayele^{*†TP}, Saurav Ghimire^{TP}, Subham Chaudhary^{TP}, Anuj Khadka^{*†TP}, Dibas Dauliya^{TP}, Samarpan Poudel^{*†P}, Giorgi Gogitidze^{*P}, Khagendra Khatri^{*P}, Shadip Khadka^{*P}, Prince Mensah^{*P}, Krenjila Sharma^{*P}, Kenisha Thapa^{*P}, Diya Adhikari^{*P}, Keepa Maharjan^{*P}, Satyam Regmi^{*P}, Vidur Khanal^P, Apekshya Bhattarai^P, Pratistha Ghimire^P, Sangit Manandhar^P, Akaki Jvarsheishvili^P

Bloomfield College

Lilian Ofik^T.

Rensselaer Polytechnic Institute

Robert Lindsey^{*}, Mike J. Stipicevic^{*}, Ryan Z. Govostes^{*}, Alex Grintsvayg^{*}, Thomas J. Connolly^{*}, Cody Rose^T.

^T Thesis advisement.

^P One or more presentations (non-refereed).

^{*} Refereed publication and presentation.

^{*} Multiple refereed publications and presentations.

[†] Paper or presentation award.

ACADEMIC ADVISING, MENTORSHIP, STUDENT SUPPORT

Academic major advising, Caldwell University

40-50 students every semester

Caldwell University Google Developer Group club advisor

Caldwell University Computer Science club advisor

Caldwell University Robotics club advisor

Support (financial, advisory, administrative) for student-run events, including

CougarHacks 2025 (first Caldwell University hackathon)

NASA International Space Apps Challenge hosted at Caldwell University on October 2025 (largest attendance in the state of New Jersey)

Caldwell RoboCup 2024

Support (financial, advisory, administrative) for student participation in intercollegiate coding competitions. Supported students in preparation, travel, and participation in dozens of highly competitive intercollegiate hackathons, often resulting in our students receiving top prizes –

6 first place prizes (Vassar Data Analysis Competition 2023, HackPrinceton 2024, HackRU 2024, HackNYU 2025, HopHacks 2025, Hack@URI 2026)

2 second place prizes (HackNJIT 2024, HopHacks 2024)

1 Top 10 main prize finalist (HackMIT 2025)

1 honorable mention (CalHacks 2025)

GRANT AND FELLOWSHIP AWARDS

Alvin B. Calman Endowed Chair (position appointment; 2025-present). Caldwell University (\$30,000).

Proposal for new equipment and services for C-STEM research laboratory (PI; 2026). Caldwell University HSI-STEM fund (\$25,000).

Proposal for new equipment and services for C-STEM research laboratory (PI; 2025). Caldwell University HSI-STEM fund (\$10,000).

Proposal to fund an interdisciplinary computational research laboratory (Co-PI; 2023). Caldwell University HSI-STEM fund (\$14,000).

Proposal for a Campus-wide Computer Science and Data Science online learning platform license (Co-PI; 2022). Pfizer Undergraduate Research Endeavors (\$4,000).

Generative Models of Fast & Frugal Trees (Co-PI; 2013-2015). Air Force Office of Scientific Research (\$801,000).

Integration of Learning Mechanisms (National Research Council Fellowship; 2011-2013). National Academies of Science (\$163,000).

Examining the Goal-Proximity Decision Mechanism (Dean Harry J. Carman Fellowship; 2008). Educational and Cultural Fund of the Electrical Industry (\$8,000).

SOFTWARE

Veksler, V. D. (2026). ReRead.js - open source JavaScript library for editing text patterns in a more readable and maintainable way than standard regular expressions, with the ability to import from and export to regular expression code; add comments and break up the pattern into multiple lines; create custom named tokens for common and/or complex patterns.
<https://rereads.github.io/>
- v1.0 released Apr 2026

Veksler, V. D. & Veksler, B. Z. (2025). LectureTest - Secure examination software with lockdown mode, real time observation, and data analysis features. Enables special question types for Computer Programming courses (coding blocks, 1D and 2D Parsons problems).
<https://lecturedot.github.io/LectureTest>
- v0.1 (beta) released Mar 2025, tested in one course (70 students)
- v0.1 tested across 5 sections with 3 instructors
- v0.2 released Apr 2026
(140+ users registered)

Veksler, V. D. (2024). LectureAssign - Visual Studio Code extension aimed at preventing plagiarism and streamlining programming assignment creation and submission for Computer Science courses.
<https://marketplace.visualstudio.com/items?itemName=LectureDot.lecture-assign>
- v0.1 (beta) released Jan 2024, tested in one course
- v0.2 released Aug 2024, tested with two faculty across several sections
(200+ installs on VSCode marketplace)

Veksler, V. D. (2023). LectureSeats - web application aimed at fast attendance taking with multi-factor proof of attendance (QR or passcode, geolocation, photo, seat code).
<https://caldwelllectureseats.github.io/>
- v0.1 (beta) released Aug 2023, tested in four courses
- v0.2 released Jan 2024, currently being used by multiple faculty members at Caldwell University in Business, Psychology, and Computer Science
- v1.0 release in Aug 2025.
(500+ users registered)

Veksler, V. D. (2023). u1js - front-end JavaScript library for cross-language cross-protocol widget display and event capture using the UINL user-interface language.
<https://uinl.github.io/u1js/>
- v0.1 (beta) released Mar 2023
